synthetic rattan

DETAILS

The Vera Dining Chair invites you to relax and enjoy entertaining al fresco with its comfortable curved back, generous seat, and calming neutral finish. The sculptural frame is crafted with high-grade solid teak with a neutral finish to highlight the natural grain. The synthetic rattan matches the texture and aesthetic of a natural fiber, but is UV-treated for outdoor performance.

Equally beautiful indoors, especially for young families, these chairs are stain resistant and can be taken outside and rinsed off.
