

Beach House Lounge Chair In Brown Teak

Generous proportions, deep cushions, and wide paddle arms invite you to curl up cross-legged, stretch out in the afternoon sun, or set your drink on the arm and stay awhile. Handwoven outdoor synthetic paper cord threads through the solid teak sandblasted frame, showcasing the craftsmanship behind every detail while lending warmth and texture from every angle.

UV-resistant performance upholstery and quick-dry foam make it equally at home indoors or outside.

Designed in collaboration with Camille Styles.
