

Clara Step Stool

In Brown Oak

The Clara Step Stool draws inspiration from traditional Swiss chalets, with charming carved curves and cutout details.

Crafted from solid brown oak, its low-profile silhouette features sculpted scoops, scallops, and diamonds. Its compact footprint tucks neatly into kitchens, bathrooms, closets, and anywhere a little extra reach is needed. Non-slip silicone feet help keep it securely in place while protecting hard floors.

Beautiful enough to leave on display, Clara brings warmth, utility, and character to everyday spaces.
