

Ema Arm Dining Chair

In Teak

The Ema Dining Chair features a gently curved frame composed of rounded teak elements, creating a form that feels both sculptural and inviting.

Handwoven outdoor synthetic paper cord wraps a high-grade teak frame, adding a textural, lived-in quality that captures the look of natural fiber with added resilience. UV-stabilized and suitable for indoor and outdoor spaces, it’s designed to withstand the elements—alongside kids, pets, and messes that wash away with ease.
