

Freda Wave Counter Stool In Upholstered Performance Linen

The Freda Wave Counter Stool brings a sense of movement to the table, with playful, wavy lines inspired by French mid-century design.

Crafted from solid white oak, each frame is finished with an anti-yellowing treatment to preserve its natural brightness over time. Customize your seat with classic Danish-style paper cord—woven for durability and minimal sagging—or opt for an upholstered finish in performance linen or your own material (COM). Pair with the Freda Razor for a mix-and-match set that feels both curated and effortless.
