

Senja Side Table

In White Oak

The Senja Side Table brings playful form and everyday versatility to the home, working effortlessly as both a side table and footstool.

Crafted from solid white oak, its softly undulating silhouette draws inspiration from French and Danish designs of the 1940s and '50s, adding warmth and character from every angle. Simple, compact, and easy to move throughout the home, Senja fits naturally beside a lounge chair, in a bedside nook, or tucked into a family bath. An anti-yellowing finish preserves the oak's natural brightness for years to come.
